

Contamination and the Valuation Process

About this webinar

You're asked to do an appraisal on a contaminated property. Are you prepared? What are you appraising and how do you appraise it? What appraisal method produces the most reliable results? Join us for this webinar to learn more about contaminated properties, get answers to these questions, and much more.

Topics discussed during this webinar include:

- Environmental Contamination, Risks, and Stigma
- The Remediation Lifecycle
- FNMA and USPAP Requirements
- Analysis Methods: Environmental Case Study, Paired Sales, Multiple Regression, and Income Capitalization Analysis
- Data Sources and Resources
- Current Issues and What's Ahead
